Joining the Open Government Partnership in September 2011

Minister of State Office of the Comptroller General Jorge Hage Sobrinho (Brazil) and Undersecretary of State for Democracy and Global Affairs, Maria Otero (United States).
Co-Chairs, Open Government Partnership

16th August 2011

Letter of intent

The Slovak Government welcomes and wishes to join the OGP`s initiative

Dear Co-Chairs of the Open Government Partnership,

The Slovak government welcomes and appreciates the Open Government Partnership`s initiative to promote transparency, to fight corruption, to empower citizens and civic engagement and to leverage new technologies.

We do share your will, determination and call for more transparent, effective and accountable government and we consider it to be a challenge of great and decisive importance. Therefore, we would like to join this „long-distance race" and thus to contribute to the common goal by our own commitments, efforts and experiences.

My government has adopted such several measures domestically but there is a need of multilateral co-operation, of exchanging our best practices and sending an important signal to the international community. And of course, there is always some space for the improvement.

We have launched extensive reform programmes in the judiciary, in the Office of public prosecutors, as well as by making all public contracts automatically available on the internet. In part, these changes focus on strengthening the key institutions and renewing their personnel, partly to increase transparency, and partly also to speed-up the procedures in various offices and in courts, reducing the time required for decision-making.

One of the most important challenges in Slovakia with which my government is confronted is to restore trust and confidence in the rule of law. In the broadest sense - beginning from enforceability of law, through trust in justice, and ending with the reduction of corruption rates and cronyism. We are devoted to successful implementation of these reforms in order to change Slovakia for the better.

Me and my Cabinet look forward to working with you closely on the principles of open governance, on the fulfilling of our common vision and strong belief that good ideas lead to rewards and breaches of rules to punishments, that honesty and decency at work, in politics, and also in every-day life are not to be ridiculed, but should be a natural part of everyday life.

*Iveta Radičová*
The Prime Minister of the Slovak republic

FROM

COMMITMENT

TO

ACTION

How it works?

- Developing 2 years Action plans in cooperation with civil society
- The approval process at national level
- Implementation of Action plans
- Self-assessment
- IRM

Slovak National Action Plans

Action Plan OGP 2012-2013

- Open information
- Government open to the dialogue
- Transparent government
- Feedback

Action Plan OGP 2015

- Open Information
- Open Education & Research
- Government open to the dialogue
- Open Justice
- Feedback

Open Data in context of OGP in Slovakia

Main OGP commitments in open data

2012-2013

- Develop and launch the Open Data Portal

- Publish pilot datasets on the Open Data Portal in compliance with the approved OGP Action Plan of the Slovak Republic

- Develop a list of all datasets, including technical specifications and a plan of their progressive publication on the Open Data Portal

- Develop technical and content specifications for public administration data and metadata for the Open Data Portal and guidelines for data publication and further use based on the public licence

2015

- Develop an updated list of all datasets of organizations

- Publish datasets on the Open Data Portal according to the planned schedule

- Carry out a survey of most frequently requested data sets and share the results with the ministers and other heads of public administration bodies

- Based on the evaluation of public demand for the most requested datasets, preferentially publish relevant datasets at the Open Data Portal

- Develop a strategy for publication and use of open data of public administration and submit it to the Government.

Where are we now?
